DRIVE**

JUST 5kg

THE WORLD'S LIGHTEST

Feel the comfortable and the convenience of a power wheelchair by adding this 5kg-device on your wheelchair. It can be easily loaded in small compact cars because the folding function of the existing wheelchairs is unrestricted.

TOO Easy

THE WORLD'S EASIEST

Enjoy freedom of mobility by mounting the [todo]-Drive, which comprises a motor, a joystick, a computing board, and a battery. It switches between manual and power modes with a simple operating lever. Nothing can be simpler.

FITS All

THE WORLD'S MOST UNIVERSAL

There are about 1,500 kinds of wheelchairs in the world. The universal design of [todo]-Drive fits most of these wheelchairs. [todo]-Drive optional parts allow [todo]-Drive to be installed in various ways. We want to install [todo]-Drive on every wheelchair in the world. Let's go!
