VISION

Mainstreaming of differently abled children and their inclusion into the society.

"We are here to care"

MISSION

To help the child to attain maximum independence in his functioning by providing appropriate and focused therapy through a holistic approach in an amicable environment.

OUR SPECIALITIES

- Provides service to 150000+ students per year from 38 different countries with Autism spectrum disorder (ASD) and other developmental needs. The biggest team of child development professionals in India with 220 members in the team.
- Internship centre for 38 universities across the globe and all staff members are selected only through the campus recruitment process.
- Mainstreaming maximum number of ASD children every year with a tie-up of 38 schools in Kerala.
- India's first child developmental screening app 'Jewel Child App' which can be used by parents to identify age-appropriate developmental needs of their kids in 45 minutes.
- The first Child Developmental Centre in India which is completely paperless with Jewel's ERP for overall management and treatment.
- The first full-fledged Paediatric Occupational Therapy Department in Kerala on a par with international standards and the first complete Child Developmental Centre in South India (Estd. 2008).
- Tailor made therapy programs as each child is unique.
- 100% transparency in programs where the presence of a parent/ caretaker is compulsory throughout the sessions.
- Parents are trained for daily follow-up of home programs given by all departments and are monitored by the concerned therapist daily.
- Reassessments are taken in all departments every month to evaluate the progress of the child followed by case discussions once in every 3 months.
- Case files and goals are available for parents to check and verify if the set goals are achieved every month.
- Hairline analysis for the implementation of set goals by the clinical HODs and management team every month and revision is recommended whenever required.
- Frequent staff development programs are done by an international team on a weekly basis through online platforms and regular quality assurance audits by an accredited external team.
- Outdoor Group Therapy Sessions in children's parks, shopping malls, public transportation and theatres every month.
- We have research collaborations with various national & international institutes.
- We are international consultants in setting up multi disciplinary child developmental therapy centres across the globe.
- Technically competent online department with regular updation of Blogs and Vlogs by professionals daily.
- Weekly journal club for professionals with discussions on papers from peer reviewed journals. Professional workshops by eminent professionals once in three months.
- Social Outreach Program in various areas such as: 'Teach & Train' - Training mainstream school teachers to handle differently-abled children. 'I Challenge Plastic bottle'- Spreading awareness as well as collecting & sorting plastic waste for recycling, a project implemented in 68 schools of the Kottayam district. Cloth Bank v/s Food Bank is another project of JACDC in association with Father Davis Chiramel Trust which collects and sells used clothes from people across the globe and uses the money to feed 68000 people a month.

The centre is associated with a trust called AUTISM FOUNDATION OF INDIA TRUST (286/IV/2019) which has 3 patrons

SOCIAL OUTREACH
