We craft our wood with
**love and
passion**

The Play Co believes in a sustainable, eco-friendly, physically active future for the upcoming generations. Our products are designed specially in pure solid pinewood known for its anti-fungal and anti-inflammatory properties and good quality plywood that is suitable for weight bearing and endures a smooth aesthetically pleasing finish. We use non-toxic paints and polish to ensure its taste-safe and health-friendly.

OUR HOTSELLING PRODUCTS

Indoor Jungle Gyms

Space-efficient indoor jungle gyms designed to deliver therapeutic benefits in environments with limited space. Ideal for homes, schools, and therapy centers seeking safe, developmentally supportive play solutions.

Balancing Beam

Enhance balance and coordination with a tactile experience

Pikler Triangle Climbing Frames

Designed by Dr. Emmi Pikler, the climbing frame range builds motor skills, confidence, coordination, and independent movement.

Swedish Ladder

Wall-mounted climbing solution for active play

Enhance balance and coordination

Balancing is an essential tool to help children build their core muscles. Improved stability leads to better body awareness and coordination. It also boosts their confidence to engage in gross motor skill development serving as a base to physical growth.

Sensory-Motor Stimulation

Little climbers and jumpers crave for that sensory-motor experience that provides the deep muscle work, head tilting, grips and grabs. They need the required proprioceptive and vestibular sensory input

we only produce products of
**quality and
satisfaction**

The Play Co experience is a true period of joy and excitement from selection of products of interest to finalization of sales order and customisation according to design and color needs, product delivery and after-sales services. Our clients are satisfied with the customer services from heart to heart. We believe in teamwork and empathy in our work environment and value the benefits of our work to the world.
