

Accessible Minds

At Accessible Minds, we believe the digital world should work for everyone. We specialize in AI-powered accessibility solutions that ensure your websites, apps, games, and documents are fully usable by individuals with disabilities. From audits to development, we turn compliance into meaningful inclusion—backed by global standards and user-first design.

Our Core Services

Digital Accessibility Audit

In-depth audits combining automated tools and manual testing to uncover accessibility barriers in compliance with WCAG, ADA, Section 508, and more.

Web Remediation

Precise code and design-level fixes that resolve accessibility issues without compromising performance or visual aesthetics.

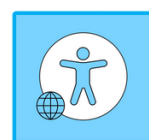

Document Accessibility

Conversion and tagging of PDFs, Word, Excel, and PowerPoint documents to ensure compatibility with screen readers and assistive tech.

Game Accessibility

Custom solutions for inclusive gameplay—making your games accessible for players of all abilities, without limiting creativity or engagement.

Web Accessible Development

From scratch-built accessible websites to integrating compliance into your existing platform—HTML5, React, Angular, and beyond.

Industries We Serve
