

Equal Adventure to Showcase Adaptive Outdoor Equipment and Training Solutions at Access Abilities Expo 2025 Dubai

Equal Adventure, specialists in the design and manufacture of high-quality adaptive equipment that enables disabled people to participate in outdoor adventure activities, expeditions, and active outdoor lifestyles.

Equal Adventure also delivers a range of **accredited training packages** to help practitioners and organisations develop inclusive practices, ensuring that equipment is supported by knowledge, confidence, and culture change.

Breaking Barriers Through Design and Training

For more than 15 years, Equal Adventure has worked closely with **schools, outdoor centres, disability organisations, and practitioners** to co-design solutions that make outdoor environments accessible. By combining engineering excellence with inclusive design, the organisation creates equipment and resources that are durable, practical, and transformation in real-world settings.

At Access Abilities Expo 2025, Equal Adventure will highlight both its **innovative product line** and **inclusive training programs**, demonstrating how disabled people can engage fully in outdoor adventure and active lifestyles when barriers are removed.

Featured Solutions at Access Abilities Expo 2025

- **The Boma All-Terrain Chair** – A Handlebar or a Joystick-controlled adaptive wheelchair designed for independence and freedom in rugged outdoor environments.
- **Adaptive Activity Kits** – Modular systems that enable disabled and non-disabled participants to share experiences in outdoor sport and learning.
- **Transfer & Mobility Aids** – Tools designed to support independence and safety in both everyday and adventurous settings.
- **Inclusive Training Packages** – Accredited resources and programs that equip organisations and practitioners to implement lasting inclusive practice.
