

AN INTRODUCTION

Advancing Education & Therapy For All

WHAT IS WONDERTREE?

WonderTree is an EdTech company that helps children of determination with interactive movement games based on Augmented Reality.

This helps them enhance their skills in the following categories:

Motor Skills

Educational Skills

Cognitive Skills

Socio-Emotional Skills

HOW WE STARTED

Our journey started with our CTO and Co-founder Usman. He was inspired by his brother Hamza who is a child of determination.

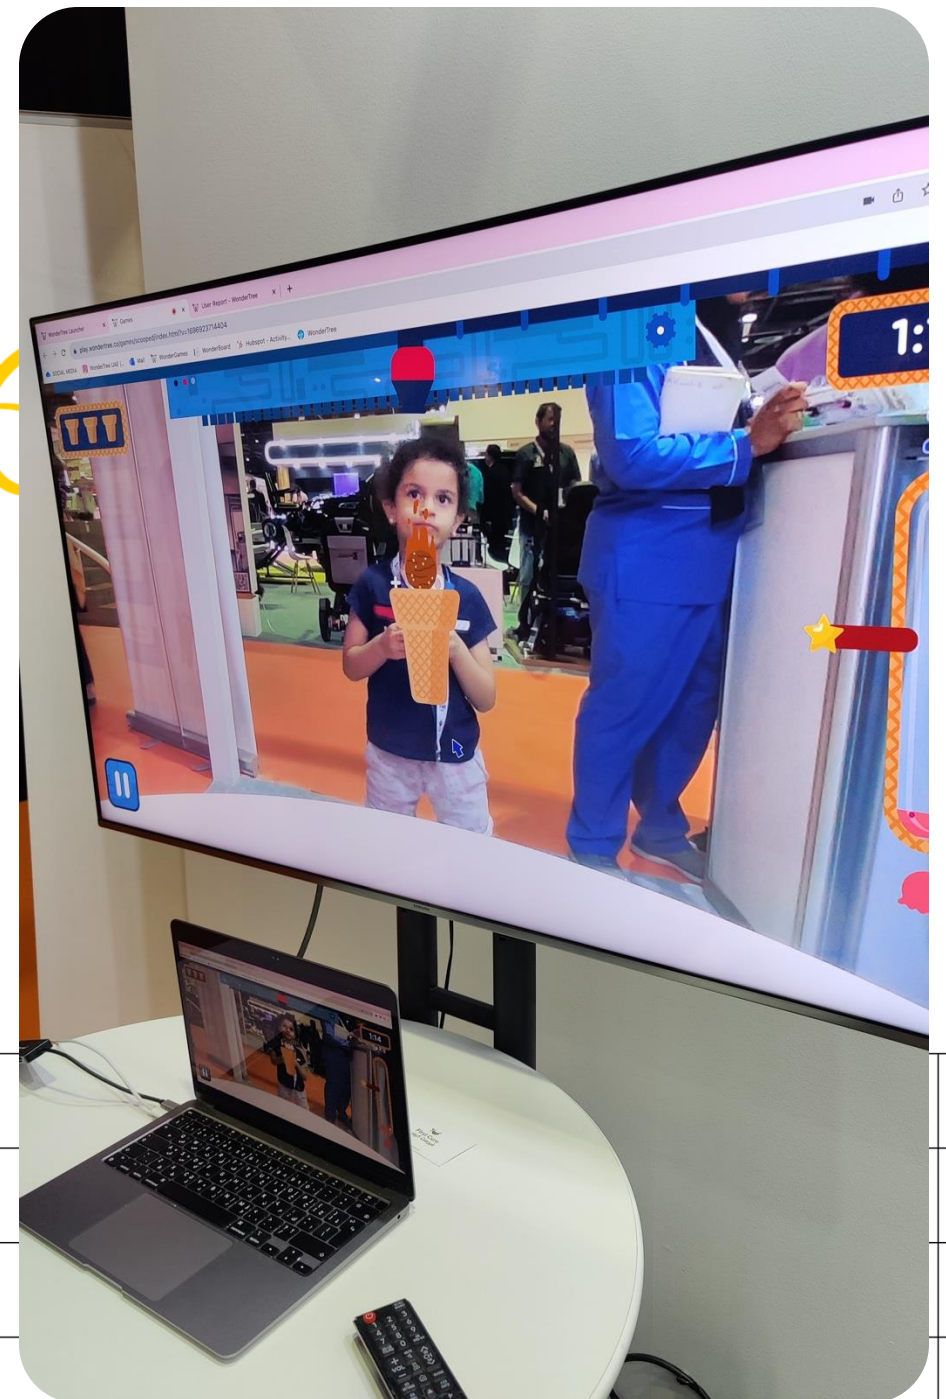

Hamza

Usman

OUR GOAL

To make special education and development **accessible**, **effective**, and **fun** for students of determination across the world.

OUR SOLUTIONS

- Gamified Learning:**

WonderTree turns special education and therapy into fun, interactive AR games.

- Active Participation:**

Our engaging games encourage children to actively take part in learning.

- Resource Efficiency:**

WonderTree streamlines processes, easing demands on teachers and therapists.

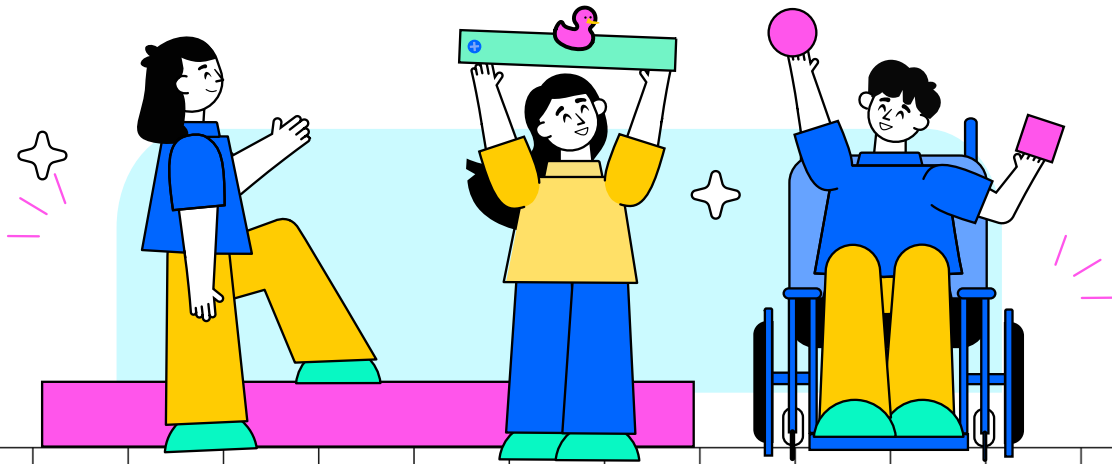

- Social Interaction:**

Designed for collaboration, our games help reduce social isolation.

- Accessible Anytime, Anywhere:**

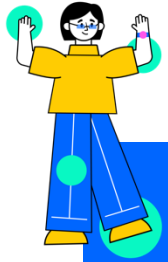

WonderTree's online platform offers 24/7 access for children to learn and play.

SUPPORTING SPECIAL EDUCATORS/ THERAPISTS

- Encouraging students to participate in the classroom and ease this challenge.
- Bridging the Gap with Parental Involvement as parents can access the real-time reports.
- Minimize the emotional burnout and excessive time spent documenting progress reports.
- With targeted AR/AI-powered games, educators can address specific motor, cognitive, and socio-emotional goals for each student, aligning with (ILPs).
- WonderTree enables educators/therapists to monitor students remotely when needed, ensuring continuity of development during unexpected disruptions.

KEY AREAS OF DEVELOPMENT

Motor

- Gross Motor
- Upper Limbic
- Lower Limbic
- Bi-lateral coordination
- Vestibular Balance
- Eye-Hand coordination

Educational

- Vocabulary
- Phonics
- Memory
- Addition & Subtraction
- Imagination
- Concept of Time

Cognitive

- Decision making
- Sorting skills
- Reflexes
- Goal Direction
- Attention Span

Socio-Emotional

- Emotional Awareness
- Expression Skills
- Self-Awareness
- Emotion Recognition
- Real-Life Relevance

THE PRODUCT

Our solution is **accessible**,
effective and **fun**.

HOW DOES IT WORK?

WonderTree runs on your internet browser!
All you need are 3 things:

- Laptop
- Webcam
- Internet

Step 1

Log in to
WonderTree
<https://wondertree.co>

Step 2

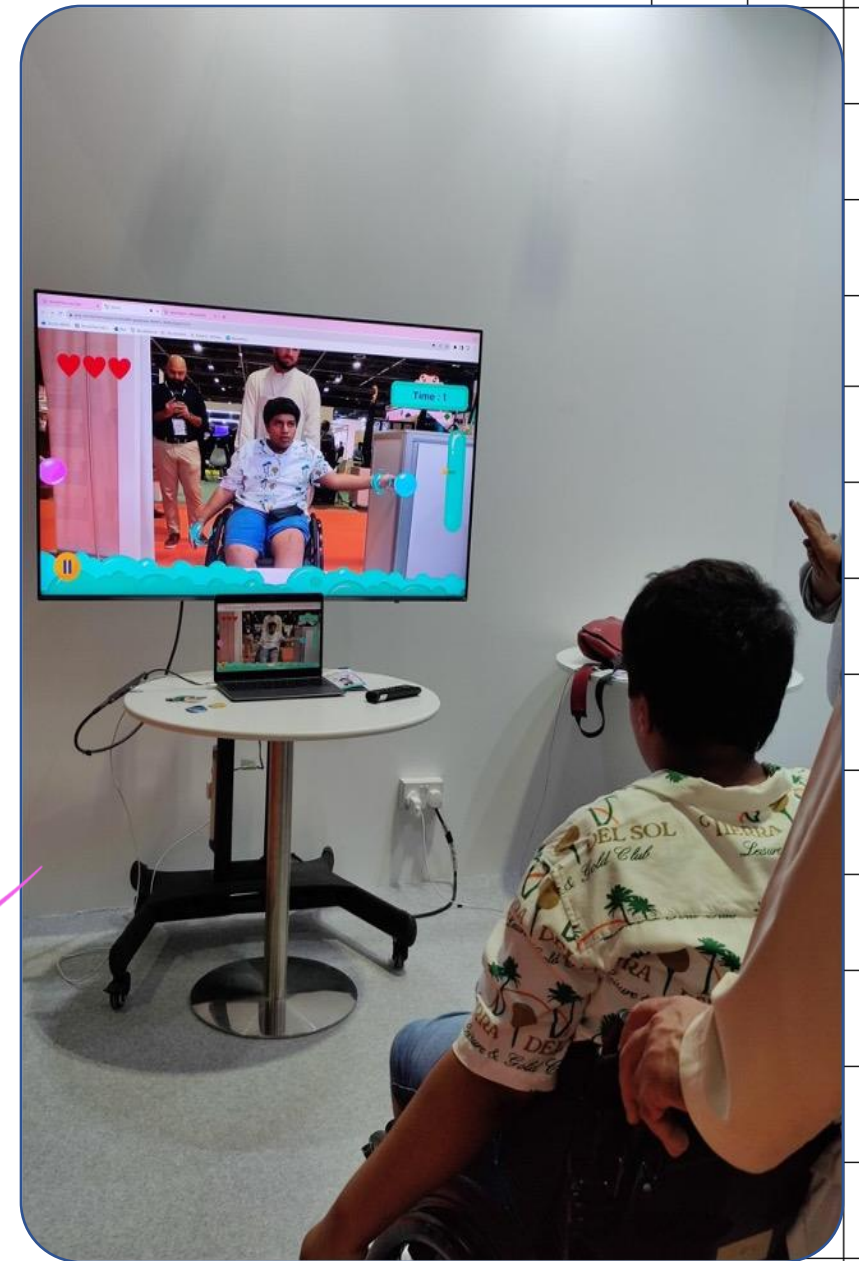

Select the game
for the child

Step 3

Start playing

WonderTree uses:

- Augmented Reality
- Artificial Intelligence to register the body as input for the games. (Patent pending technology USPTO (US patent office))
