Comprehensive and multidisciplinary care for all age groups, addressing a wide range of challenges including speech and language disorders, motor difficulties, reading and writing issues, social and emotional understanding, feeding problems, fine and gross motor skills, and more.

Our expertise spans conditions such as Oral motor and Feeding disorders, Dysphagia, Hearing impairments, Fluency problems, Voice disorders, Autism, ADHD, Intellectual issues, Learning disabilities, Motor disorders, Cleft lip and palate, Anxiety, Depression, Neuro-genic disorders, and more.

Speech and Language therapy

At BRIDGES, we help people improve communication skills to support their intellectual, emotional, and social development, using the latest therapy techniques to meet their goals.

Occupational therapy

At BRIDGES, Our OT program empowers individuals with disabilities to gain independence and confidence using specialized fully equipped safe environment which helps to reduce anxiety and sensory issues through **sensory, reflex integration** methods.

Behavioural therapy

At BRIDGES, We identify and modify unhealthy behaviors with customized therapy plans, supervised by qualified BCBA's and in collaboration with parents. Caregivers receive regular updates and training to improve results.

Psychology

At BRIDGES, we promote healthy mind development to boost decision-making, stress management, and behavior, leading to a more successful career, better relationships, and improved self-confidence and communication skills.

Physiotherapy

At BRIDGES, we use innovative physiotherapy exercises, including **Cuevas Medek Exercises**, to enhance strength, gross motor skills, coordination, flexibility, balance, and sensory integration for both children and adults.

School Readiness

At BRIDGES, we ensure that children graduate with the academic, social, emotional & physical skills required to feel confident and succeed in mainstream schools.

Training Programs

At BRIDGES, We offer both paid and free training programs for parents and teachers to help them support children and loved ones in various ways.
