

# EMPOWERING EVERY CHILD TO THRIVE

## AUSOME DEVELOPMENT & LEARNING CENTER

In a world where inclusive education and early intervention are more important than ever, Ausome Development continues to make a meaningful difference in the lives of children and families across the UAE.

Founded with a vision rooted in compassion and purpose, Ausome Center provides comprehensive pediatric services designed to support children of determination and diverse learners. The center offers Applied Behavior Analysis (ABA), Speech and Language Therapy, Occupational Therapy, Physiotherapy, early intervention programs, academic support and functional life-skills training. Each program is carefully tailored to meet the individual needs of every child.

“At Ausome, we believe that every child deserves the opportunity to communicate, learn, and grow in a supportive environment,” says Founder and Director Arlene Terencio. “Our goal is not just intervention, but transformation — empowering children to become confident, independent, and valued members of the community.”

What sets Ausome apart is its multidisciplinary approach. Therapists, educators, and support staff collaborate closely with families to create individualized plans that address communication, behavior, academics, and daily living skills. The center also prioritizes continuous professional development to ensure its team remains up to date on global best practices in special education and therapy.

Beyond clinical services, Ausome fosters a strong sense of community through parent workshops, inclusive events, enrichment programs, and outreach initiatives that promote awareness and acceptance.

As the demand for specialized services grows in the region, Ausome Center remains committed to providing accessible, high-quality intervention — ensuring that no child is left behind.

Through dedication, innovation, and heart, Ausome continues to live up to its name — creating an “ausome” community where differences are embraced, and every child is given the chance to shine.
