Comfort, performance, technology, and durability.

1052

External Breast Prosthesis – Triangular Model (Dark Skin Tone)

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1052

External Breast Prosthesis – Triangular Model (Medium Skin Tone)

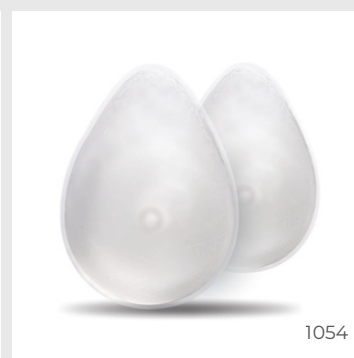

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1052

External Breast Prosthesis – Triangular Model (Light Skin Tone)

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1054

External Silicone Breast Prosthesis – Clear Teardrop Model

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1050

Colored External Silicone Breast Prosthesis – Teardrop Model (Dark Skin Tone) R & L

Sizes: 1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1050

Colored External Silicone Breast Prosthesis – Teardrop Model (Medium Skin Tone) R & L

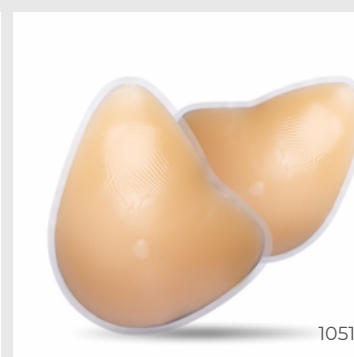

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1050

Colored External Silicone Breast Prosthesis – Teardrop Model (Light Skin Tone) R & L Unit

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

1051

Anatomical Breast Prosthesis – R & L (Unit)

Sizes:
1 - 6 (38 - 46)
7 - 10 (46 - 50)
11 and 12 (52 and 54)
13 and 14 (56 and 58)
Composition: 100% Silicone

Biomimetic
PIRARUCU
edition

GenuFlex – Waterproof Sealing Knee Sleeve Liner – PIRARUCU

Sizes: P, M, G, GG
Composition: Silicone
Ref: HQF48GT

The Pirarucu is the largest freshwater fish in the world, known as “The Giant of the Amazon”. This river monster can exceed 3 meters in length, weighing over 200 kg, and is estimated to have existed for more than 190 million years. This “living fossil” is proof of its ability to adapt to aquatic environments.

Waterproof knee sleeve intended for transtibial prosthesis users for sealing and suspension, used during showering and also for leisure activities, including immersion in the sea or swimming pool.

GenuFlex - KNEE GEL SLEEVE FOR SUSPENSION AND SEALING

FLEXED SEALING KNEE SLEEVE - GENUFLEX

Sizes: P, M, G, GG
Composition: Polymer gel and fabric cover.
HQF46GT

STRAIGHT SEALING KNEE SLEEVE - GENUFLEX

Sizes: P, M, G, GG
Composition: Polymer gel and fabric cover.
HQF47GT

Transtibial Liner With Sealing Rings – Maxseal

Transtibial Liner With Sealing Rings – Maxseal

Sizes (mm): 220, 240, 260, 280, 300, 320.
Composition: 100% silicone.

HQF10S

Transfemoral Liner With Sealing Rings – Maxseal

Sizes (mm): 340, 360, 380, 400, 440, 470.
Composition: 100% silicone.

HQF11S

Resistance test video: Liner Maxseal X Pickup

Maxseal Transtibial Liner With Movable Ring

Models: Customized or FULL

Ref.: HQF16S - TT | HQF17S - TF

Sizes (mm):

220,240,260,280,300,320,340,360,380,400,440,470,

Easy to apply

HQF18S

Sealing Ring Liner Vassar – Maxseal

Sizes (mm): 260, 300, 340, 380, 420.
Composition: 100% silicone.

Customizable by technician

MODELS :

CUSTOMIZED

The sealing grooves are empty, allowing the technician to fill them with silicone in their workshop.

FULL

All sealing grooves are factory pre-filled, ready for use.

With connection

Without connection

VOLKSLINER TRANSTIBIAL LINER WITH DISTAL CONNECTION AND FABRIC COVER

REF.: HQF18ST | TRANSFEMORAL HQF19ST

Indication: It is a flexible interface used between the residual limb and the prosthetic socket. It features incredible softness, offering superior comfort and eliminating friction within the socket. Its properties enhance grip to the socket, ensuring suspension and greater safety for the user. It protects bony prominences as it conforms to the anatomical contours of the residual limb.

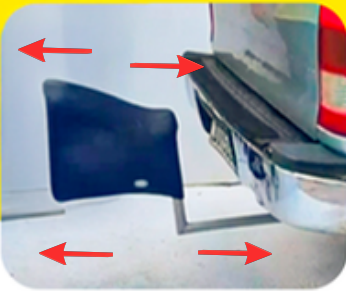

Sizes (mm):

140,180,220,240,260,280,300,320,340,360,380,400,440,470,500

Composition: Polymer gel, fabric cover and aluminum connector.

Resistance test video: Liner DERMA COMFORT PRO X Pickup

LINER DERMA COMFORT PRO

REF.: HQF40GT / TT | HQF41GT / TF

Indication: A flexible interface used between the residual limb and prosthetic socket. Provides exceptional softness, high comfort, and reduces friction in the socket. Its properties enhance socket adhesion, ensuring suspension and greater user safety. Protects bony prominences by adapting to the anatomical shapes of the residual limb.

Sizes (mm):

220,240,260,280,300,320,340,360,380,400,440,470,500

Composition: Polymer gel and fabric cover.

Technical Orthopedic- Ortho Pauher

Comfort, performance, technology, and durability.

With 3 sealing rings

SLCA400

Transfemoral Transtibial Siligel Liner With Sealing Rings

Sizes (mm): 240,260,280,310,340,360,380,400,440,470,500

Composition: 100% silicone.

Transtibial Silicone Liner with Connection

Sizes (mm): 220, 235, 250, 265, 280, 300, 320, 340.

Composition: Silicone and Aluminum Connector.

TRANSTIBIAL SILIGEL LINER WITHOUT CONNECTION

Sizes (mm): 220, 235, 250, 265, 280, 300, 320, 340.

Composition: 100% silicone.

TRANSTIBIAL SILIGEL LINER WITHOUT CONNECTION

Sizes (mm): 220, 235, 250, 265, 280, 300, 320, 340, 360, 380, 400, 440

Composition: 100% silicone.

VASSAR System - Adjustable Ring For Sealing Vacuum Socket Seal

Sizes (mm): 220-235-250-265 -280 -300-320-340-360-380 -420 -440-480 mm

Composition: 100% silicone.

Flexible Gel Transtibial Prosthetic Liner with Fabric Cover, Without Distal Pin

Sizes (mm): 220, 235, 250, 265, 280, 300, 320, 340.

Composition: Polymer gel and fabric cover.

ARM SILIGEL LINER WITH CONNECTION

Sizes (mm): 140, 180, 220mm.

Composition: Silicone and Aluminum Connector.

ARM SILIGEL LINER WITHOUT CONNECTION

Sizes (mm): 140, 180, 220.

Composition: 100% silicone.

Siligel Distal Cushion

Sizes (mm): 140 -180mm ,180-240mm 240-280mm, 280-320mm, 320-380mm

Composition: 100% silicone.

GLJT550

KNEE GEL SLEEVE FOR SEALING SILIGEL LINER - BEIGE

Sizes: P, M, G, GG.
Composition: Polymeric Gel with Textile Covering

GLJT550

KNEE GEL SLEEVE FOR SEALING SILIGEL LINER - BLACK

Sizes (mm): P, M, G, GG.
Composition: Polymeric Gel with Textile Covering

AC911 - TF

Expulsion valve for transfemoral system

Size: Universal (Single Size)
Type: Transfemoral

AC910 - TT

Expulsion valve for transtibial system

Size: Universal (Single Size)
Type: Transtibial

Socks with gel

SG700

ACCESSORY SOCK WITHOUT GEL FOR TRANSTIBIAL RESIDUAL LIMB

Sizes: P, M, G.
Composition: Cotton

One
gel layer

SG701

UNIVERSAL SOCK WITH GEL FOR TRANSTIBIAL RESIDUAL LIMB

Size: P, M, G.
Composition: Polymer gel and cotton

Two
gel layers

SG702

UNIVERSAL SOCK WITH DOUBLE GEL FOR TRANSTIBIAL RESIDUAL LIMB

Size: P, M, G.
Composition: Polymer gel and cotton

Three
gel layers

SG703

UNIVERSAL SOCK WITH TRIPLE GEL FOR TRANSTIBIAL RESIDUAL LIMB

Size: P, M, G
Composition: Polymer gel and cotton

Ultra-soft
gel inside

Fuzzy
fabric,
flexible,
and soft

SG722

Fuzzy Orthopedic Sock For Partial Amputation Foot

Sizes: 1,2,3,4
Composition: Cotton, polyamide, and elastane

SG710

Gel sock for partial Foot amputation

Sizes: P, G.
Composition: Polymer gel and fabric

2-IN-1 COURSE

Transfemoral socket
Vacuum suspension
with **SOSIA** system

Expert-led by
Dr. Jean Carlos Cordeiro

**Study
guide
included**

Items for the Manufacture of the **SOSIA** System

Pig 01

SILICONE PIGMENT

Colors: Green, beige, black, gray, purple, orange, yellow, red, blue, pink.
Capacity: 100 ml

PQF60

WASHERS FOR SOCKET CONNECTION IN THE **SOSIA** SYSTEM (10 UNITS)

Size: One size.
Composition: Stainless steel.

4061

Silicone Compound - Shore A 50 . The **SOSIA** System (AMPUTATION SILICONE SOCKET)

Capacity: 500g (part "A") + 500 g (part "B").
Composition: 100% silicone.

BONUS COURSE:
**Prosthesis for
 partial foot
 amputation.**

Expert-led by
Dr. Jean Carlos Cordeiro

**Cosmetic cover for partial
 foot amputation prosthesis**

Ref.: 4063
Size: 21, 23, 25, 27
Side: Right / Left
Composition: 100% silicone.

**Items for
 partial foot
 amputation
 cover
 fabrication**

VACUUM PAUHER

For Pectus Excavatum

Orthoses with Bulb Pump

VP10

Vacuum Pauher Suction Orthoses - Adult Model
 Sizes (mm): 140/165/190/225/250

VP11

Vacuum Pauher Hourglass Suction Orthoses - Women's Model
 Sizes (mm): 210x160mm / 265x215mm

VP11

Vacuum Pauher Hourglass Suction Orthoses - Men's Model
 Size (mm): 265x215mm

VP10

Vacuum Pauher Suction Orthoses - Pediatric Model
 Size (mm): 110mm

Orthoses with Bulb Pump + Dial vacuum gauge

VP13

Vacuum Pauher Suction Orthoses - Adult Model
 Sizes (mm): 140/165/190/225/250

VP13

Vacuum Pauher Hourglass Suction Orthoses - Women's Model
 Size (mm): 210x160mm

VP13

Vacuum Pauher Hourglass Suction Orthoses - Men's Model
 Size (mm): 265x215mm

VP12

Vacuum Pauher Suction Orthoses - Pediatric Model
 Size (mm): 110mm

VP05

Automated VP electronic device

VP03

Dial vacuum gauge

VP01

Bulb pump for Vacuum Pauher suction

VP04

Set of tracking rulers (mm)

Dynamic Thoracic Compression Brace for Pectus Carinatum

REF.: PTC01

ANVISA Registration Number:
80223340070

AFO GUTTER STABILITY

Ref.: AC131 | Sizes: P,M,G,GG
Side: Right, Left

Recommended for equinus foot, foot drop, anterior tibial weakness, traumatic or neurological injuries, deformity control, stroke, brain injuries, and resistance of the foot in plantar flexion. The Flexible AFO Splint meets biomechanical criteria that qualify it as one of the best orthoses to aid gait in cases of traumatic and neurological injuries. Super Lightweight and Durable.

**Manufactured in carbon fiber.
Enhances dynamic response
and user safety.**

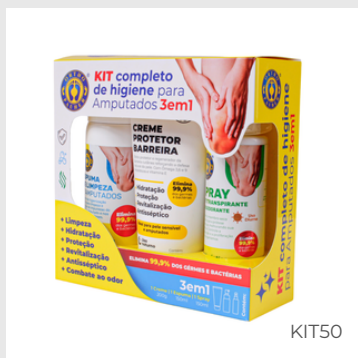

DYNAMIC ANKLE-FOOT ORTHOSIS FOR FOOT DROP – TURBOPAHER

Ref.: AC055 | Sizes: P,M,G

Helps the user lift the front part of the foot during walking, promoting a more natural gait and proper foot and ankle alignment, reducing toe drag on the ground and helping to prevent trips and falls.

ANVISA Registration Number:
80223340140

KIT50

COMPLETE KIT FOR HYGIENE FOR AMPUTEES

Size: One Size.
Model: Kit

CM114

Antiperspirant and Deodorant Spray – Bulk Pack (50 Units)

Size: One Size.
Capacity: 150 ml

CM112

Antiseptic Cleaning Foam – Bulk Pack (50 Units)

Size: One Size
Capacity: 150 ml

CM113

Barrier Cream (Tube) – Bulk Pack (50 Units)

Size: One Size
Capacity: 200 g
